# **J.J. Carment fonds 1937.017**

Version 2.1, June 2023  
Prepared by Jaimie Fedorak

**Title:** J.J. Carment fonds

**Dates of Creation:** 1899-1910

**Physical Description:** 346 b&w photographs, 329 b&w nitrate negatives, and 5 objects

### **Biographical Sketch:**

**John James Stewart Carment** was born on May 24, 1867 in Madras (now Chennai), India, the son of Joseph Carment and Violet Jane Caroline Anderson. Carment received his education in Edinburgh before immigrating to Canada. In 1885 he came to Kamloops to work as a timekeeper for the Canadian Pacific Railway. He later worked as an agent for the Sun Life insurance company, and was also employed as a night watchman. On August 21, 1889 Carment married Sarah Ann Holland, with whom he would have 4 sons (William, Malcolm, David, and John Andrew Stewart) and 3 daughters (Caroline Olive Frances, Margaret, and Marion). In 1893 Carment took an interest in the inner workings of the city, acting as a returning officer for the civic election of 1893, but he failed in his bid later that year for the position of City Clerk. Carment took up the post of Deputy Sherriff instead, and his bid the following year to become an Alderman would be successful. He would be elected again during the following three years, but he resigned as Alderman after only one month in 1897 to become the City Clerk. Carment would also gain an appointment of Justice of the Peace in 1904. In 1918 Carment was promoted to the position of City Manager, but he would retain his responsibilities as City Clerk and Treasurer. This added workload proved to be too much for Carment, as he suffered a stroke after only two months in his new position and retired shortly thereafter. Carment was also an active member of the Kamloops Agricultural Association, the Kamloops Motor Boat Club, the Anglican Church, the Gun Club, and the Ancient Free and Accepted Masons. John James Stewart Carment died on July 14, 1922 at the age of 55, in Kamloops, B.C.

### **Scope and Content:**

Fonds consists of photographs (nitrate negatives and prints) of Kamloops and the surrounding region, taken by J.J. Carment during the early years of the 20<sup>th</sup> century.

### **Custodial History:**

Fonds was donated to the Kamloops Museum and Archives in 1947 by J.A.S. Carment, the son of J.J. Carment. Collection was originally comprised of nitrate negatives, and prints were made of the majority of negatives for display purposes. Materials were initially catalogued by R.G. Pinchbeck in 1949, and prints were integrated into the KMA Photograph Collection. According to the 1949 inventory, a number of prints and negatives were disposed of for reasons unknown, and additional materials may be disposed of at a later date. A number of these materials do not

seem to have been physically discarded (as noted during final processing in 2019), and have been reintegrated into the collection wherever possible. During final processing in 2019, additional nitrate negatives were selected for disposal due to deterioration; see accessions case file for details.

**Notes:**

**Source of supplied title:** Title based on contents of fonds.

**Arrangement:** Order that fonds arrived in was maintained by the archivist. Materials have been catalogued in two series based on format: Series 1: Photographs and Series 2: Nitrate Negatives. Series 2 also contains original albums that housed the nitrate negatives. Preference of cataloguing has been given to photographic prints, due to access preference, and only nitrate negatives for which there are no prints have been catalogued. A full listing of available nitrate negatives is available.

**Access restrictions:** No restrictions on access. The archivist reserves the right to restrict access to any fragile material for preservation purposes.

**Terms governing use and reproduction:** No reproduction permitted without consent of copyright holder. It is the researcher's responsibility to obtain permission for the reproduction of materials for publication or dissemination.

**Finding aids:** Item descriptions are available for this fonds.

**Accruals:** No further accruals are expected.

**Treatment Note:** Nitrate negatives were removed from original Eastman Kodak albums and placed in acid-free/neutral envelopes to facilitate preservation. Albums have been retained. Some nitrate negatives have been disposed of due to deterioration; see accessions case file for details.

**Series 1: Photographs**

1900-1910. — 346 b&amp;w photographs
