Notes:

Source of supplied title: Title based on contents of collection.

Arrangement: No original order of this collection was apparent at the time of reprocessing (2021), but it is presumed that materials were brought into the collection and assigned KMA Photograph Numbers (KMA xxx) in the order which they were originally donated. All subsequent arrangement has been maintained by the Archivist.

Some photographic materials were removed from their original accessions and placed in this collection due to their format. Where possible, these materials have been cross-referenced to their original accession.

Materials have been further processed into individual collections based on donor (where applicable). See individual collections, as referenced, for detailed listings of photographs in those collections.

Access restrictions: No restrictions on access. The archivist reserves the right to restrict access to any fragile material for preservation purposes.
