Mount Lolo Radar Station collection

Graphic, Textual, Cartographic, Architectural Drawing

1987-2018

0.12 meters

**Title:** Mount Lolo Radar Station collection

**Dates of Creation:** 1987-2018

**Physical Description:** 3475 photographs, 2 cm of textual records, 16 maps, and 13 architectural drawings

### **Administrative History:**

**CFS Kamloops** (known colloquially as the **Mount Lolo Radar Station**) was constructed on Mount Lolo near Kamloops, B.C., in 1956-1957 as part of the Pinetree Line of Ground-Control Intercept radar stations by the United States Military. Operations at the base began in September 1957 by No. 825 Aircraft Control and Warning Squadron of the United States Air Force, and it was officially opened in 1958 as **Kamloops Air Station**. On April 1, 1962 control of the base was transferred to the Royal Canadian Air Force and it became **RCAF Station Kamloops**, operated by the RCAF No. 56 Aircraft Control and Warning Squadron. After the Unification of Forces in 1967 the base was redesignated CFS Kamloops. The base operated until April 1, 1988, when advances in technology made its functions redundant. The property remained under the control of the Canadian Military until 2005, when the buildings on the site were fully demolished and the land was returned to the peoples of Tk'emlúps te Secwépemc to become part of Kamloops Indian Reserve No. 1. The last search antennae (radar dish) to be used at the site was removed to Riverside Park by the City of Kamloops, where it remains as a memorial to the former radar station.

### **Scope and Content:**

Collection consists of photographs of the demolition of buildings and site structures at the Mount Lolo Radar Station. Photographs were taken by Peter Hayes, a retired Warrant Officer who was responsible for the coordination of this operation in 2005 and who had worked at the base prior to its closure in 1988. Collection also contains photographs of the last winter carnival at Mount Lolo, the closing ceremonies for the base, and personnel, as well as a file of research materials about the station.

### **Custodial History:**

Accession 2018.031 was donated to the Kamloops Museum and Archives on March 27, 2018 by Peter Hayes. Hayes was responsible for decommissioning the base on Mount Lolo in 1988, overseeing the site after its closure, and for coordinating the final demolition of site structures in 2005.

### **Notes:**

**Source of supplied title:** Title based on contents of collection.

**Arrangement:** Order that collection arrived in was maintained by the archivist.

**Access restrictions:** No restrictions on access. The archivist reserves the right to restrict access to any fragile material for preservation purposes.

**Terms governing use and reproduction:** No reproduction permitted without consent of copyright holder. It is the researcher's responsibility to obtain permission for the reproduction of materials for publication or dissemination.

**Finding aids:** File list is available for this collection.

**Accruals:** No further accruals are expected.
